Dr. Ghanshyam Roy
Prof.-In-Charge

Letter No.

Date 13.05.2020

Message From Principal, G.M.R.D. College, Mohanpur, Samastipur

"Do not confine your children to your own learning, for they were born in another time."

At the very outset, I on behalf of G.M.R.D. College, Mohanpur, Samastipur family, extend my heartiest welcome to all participants in this faculty development programme on "LIBRE OFFICE SUITE CALC" on 13th May 2020 to 19th May 2020.

G.M.R.D. College was founded in June 1960 by Mahanth Rameshwar Das and got affiliated by the Bihar University, Muzaffarpur in year 1968 upto degree standard. Then the college became a Constituent Unit under Lalit Narayan Mithila University, Darbhanga in year 1980. It was also registered under the UGC Act 2F in year 1982 and was Accredited by NAAC in 2005 & 2014. The Mahanth sacrificed himself economically and all that can possible. Thus, the name of the college was given GARHI MAHANTH RAMESHWAR DAS COLLEGE, MOHANPUR. It is a co-education institution of this rural and backward areas in this district and oldest in North Bihar. It fulfills the academic need of higher co-education in the district. The college has 14 departments including Science & Arts.

Technology has transformed the education sector at all age levels to a level never imagined before. Technology has delivered new educational opportunities for teachers and students alike. In this day and age when the use of handheld devices among students and children are growing, technology should be used as a tool for delivering education. It is time that organizations, institutions and teachers take advantage of technology to deliver education. The introduction of various Software and Applications in the curriculum can enhance a student's capability to a much higher level and would make them ready for newer jobs. Obviously, for these, teachers also have to be well versed with the software and various applications. LibreOffice is a free, open-source suite of office productivity software. It contains applications for word processing, spreadsheets, presentations, database management, and graphics editing. LibreOffice Calc is a spreadsheet application that you can use to calculate, analyze, and manage your data.

Updation and upgrading of knowledge is an essential ingredient of Teacher's profession. I am grateful to spoken Tutorials IIT Mumbai with which our long association has fruitified into this Faculty Development Program. I wish every success to this program.

Welcoming you all

G.S. Roy 13.05.2020
